

# True Health Direct DPC Membership Fees

## Individual Membership Pricing

Age Group	Monthly	Quarterly (5%)	Biannual (8%)	Annual (10%)
0–17	\$40	\$114	\$220.80	\$432
18–44	\$65	\$185.25	\$358.80	\$702
45–64	\$85	\$242.25	\$469.20	\$918
65+	\$100	\$285	\$552	\$1080

## Household Incremental Pricing (Additional Members)

Member Type	Monthly	Quarterly (5%)	Biannual (8%)	Annual (10%)
Additional Adult 18–44	\$60	\$171	\$331.20	\$648
Additional Adult 45–64	\$80	\$228	\$441.60	\$864
Additional Adult 65+	\$95	\$270.75	\$524.40	\$1,026
Additional Children	\$35	\$99.75	\$193.20	\$378

The total membership fee shall be calculated based on the number of Patient(s) enrolled in the Household membership and the applicable membership fee assigned to each such Patient.

Household membership includes all eligible Patient(s) who are registered under the Household membership at the time of enrollment. Membership pricing is calculated by applying the individual membership rate to the first enrolled adult and the first enrolled child, with each additional adult or child enrolled at the applicable incremental Household member rate.

The total household membership fee will be calculated at the time of registration and charged according to the member's selected payment schedule: monthly, quarterly, semiannually, or annually. The selected payment schedule will apply to the household membership for the following twelve-month membership period.

At the end of the initial twelve-month membership period, the household membership will automatically renew for an additional twelve-month period unless canceled in accordance with the membership agreement.

A one-time, nonrecurring registration fee of \$50 per household will be charged at the time of enrollment. This registration fee is separate from the recurring household membership fee and will not be charged again while the membership remains active.

## Example Household Pricing (Excluding Registration Fee)

Household	Monthly	Quarterly (5%)	Biannual (8%)	Annual (10%)
Couple (18–44)	\$125	\$356.25	\$690	\$1350
Couple (45–64)	\$165	\$470.25	\$910.80	\$1782
Couple (65+)	\$195	\$555.75	\$1,076.40	\$2,106
Couple (18-44) + 2 children	\$200	\$570	\$1,104	\$2,160
Single parent (18-44) + 2 children	\$140	\$399	\$772.80	\$1,512

## Family Savings Example

Typical family of four in traditional healthcare may pay \$1,200–\$1,800 per month in premiums alone, not including copays and deductibles. With Direct Primary Care: Couple + 2 children membership \$200/month This covers unlimited primary care visits, longer appointments, and direct communication with your physician.

## Direct Primary Care vs Traditional Primary Care

Feature	Direct Primary Care	Traditional Clinic
Monthly cost	Simple membership	Insurance premiums
Visit length	30–60 minutes	10–15 minutes
Same day visits	Often available	Rare
Direct communication	Text/phone/email	Usually unavailable
Insurance billing	None	Required

*Simple transparent pricing with unlimited primary care visits, longer appointments, and direct communication with your physician.*
